NETWORKING

Routing & Switching
OSPF · BGP · EIGRP · STP
VLANs · 802.1Q trunking
TCP/IP · IPv4/IPv6 · subnetting
Firewall (MikroTik, pfSense, FortiGate)
VPN (IPsec, WireGuard, OpenVPN)
MPLS · QoS · NAT
WPA2/WPA3 Enterprise · 802.1X
Wireshark · packet analysis
Network automation (Python, basics)
Cloud networking (AWS / Azure, basics)
MikroTik RouterOS

SECURITY

Network & firewall hardening
SIEM · IDS/IPS · Fail2ban
OWASP Top 10 · web app security
Burp Suite · OWASP ZAP
Metasploit · Nmap · Nessus
SQL injection · MITM (lab)
Wi-Fi auditing (Aircrack-ng)
Password attacks · Hashcat · Crunch
Kali · ParrotOS
MITRE ATT&CK (learning)

RF & WIRELESS

Wi-Fi (a/b/g/n/ac/ax)
LoRa · wMBUS (IoT telemetry)
Microwave P2P links
Antenna alignment · site surveys

PROFILE

I work across networking, RF, embedded systems and full-stack development. Engineer first, with a security mindset that I keep building on. After 20 years of freelance work in the field, I now write code at PeopleCert and spend my off hours in a home lab breaking and rebuilding networks to understand them better.

EXPERIENCE

Junior Software Developer 2025 – present
PeopleCert

- › Building features across the stack in C# / .NET, JavaScript, Vue.js and PostgreSQL.
- › Joined after graduating from the company's in-house fullstack bootcamp.

Field Technician, RF & Fiber 02/2021 – 11/2023
Solify

- › Installed microwave P2P links, fiber (cat. B and C) and PV systems on customer sites.
- › Ran site surveys and picked the right hardware for the RF coverage we needed.
- › Kept installations on schedule and on the safety side of things.

IoT & AMR Operator 06/2021 – 01/2023
Melcer

- › Ran a smart water metering network on LoRa and wMBUS telemetry.
- › Worked on R&D for the team, finding spots where we could automate manual work.
- › Handled project delivery from risk assessment to reporting back to the stakeholders.

IT Technician 09/2017 – 01/2018
Alman Hellas

- › Diagnosed and repaired faulty hardware, kept the warehouse running.
- › Logged system status and helped the lead technician keep things stable.

Freelance IT Consultant 2004 – present
Self-employed

- › 20 years of work for small businesses: networking, wireless setups, web apps, IoT.
- › Clients in retail, hospitality and manufacturing, both remote and on-site around Greece.
- › These days I focus on home lab security research and open-source side projects.

PORTFOLIO

Side projects, write-ups and open-source work live at [wannabexaker.github.io](https://github.com/wannabexaker).

EDUCATION

Fullstack Developer Bootcamp
PeopleCert · C#, JavaScript, Vue.js, PostgreSQL, SSMS
2025

Network & Telecom Technician
IEK Omiros

DEV & SYSTEMS

Linux · Windows · Bash

Python · PowerShell

TypeScript · React · Next.js

C# · .NET · NestJS · Vue.js

PostgreSQL · MSSQL

Docker · Proxmox

RPi · Arduino · ESP32

FIELD

Fiber splicing / PON

OTDR · CCTV integration

Photovoltaic systems

GIS / AutoCAD / Site surveys
